Advice has been received indicating that in this publication the author will endeavor to establish that the Catholic Church is a tool of the Axis and will further intimate that the Catholics in this country, as well as those in other Central and South American countries, should be looked upon with suspicion and disdain in so far as their nationalistic sentiments and loyalty are concerned.

A review of the information presently available reflects that Chase was the editor of the magazine "Click" and also one of the editors of the magazine "Friday," [redacted] It is known that during the fall of 1942 Chase visited Puerto Rico, Cuba, and other localities in that vicinity, for the purpose of securing information relative to the Spanish Falange and kindred groups.

It has been suggested that the dissemination of this book may have a deleterious effect upon the morale of the members of the Spanish Colony in the United States and that it may have serious effects upon Spain's position with respect to the present conflict, inasmuch as it is said to be designed to bring about a state of war between the United States and the present Franco regime.

Sincerely yours,

J. Edgar Hoover
